Mac system requirements:

- Mac computer with USB 2.0 port
- OS X v10.5.8 or later
- iTunes 10.5 or later
- Apple ID (required for some features)
- Internet access

Windows system requirements:

- PC with USB 2.0 port
- Windows 7, Windows Vista, or Windows XP Home or Professional with Service Pack 3 or later
- iTunes 10.5 or later
- Apple ID (required for some features)
- Internet access

iPhone 4S features:

- HSPA data speeds of up to 14.4 Mbps
- Touch up photos right on your iPhone — without the help of photo editing software on a computer. You can crop and rotate photos, enhance the image overall and even remove red-eye.
- Edit your HD video right on iPhone. Just drag to select start and end points on a filmstrip to trim your clips. Or make a mini-blockbuster in iMovie with Apple-designed themes, titles, transitions and even a soundtrack
- Video stabilization removes unwanted motion caused by unsteady hands. And if you're recording a scene with subjects in both the foreground and the background, the camera focuses where you want with a tap.

iOS 5 features:

- | | | |
|-----------------------|----------------------------|--------------------------------|
| • Notification center | • Lock screen shortcuts | • PC-free feature |
| • iMessage | • Game center enhancement | • Wireless updates |
| • Reminders | • Reading List | • AirPlay |
