

BlackBerry® Classic

- Physical keyboard with Classic BlackBerry® navigation keys
- 3.5-inch Corning® Gorilla® Glass touch screen
- Excellent battery life that provides up to 22 hours of power
- Ultimate privacy and data security through BlackBerry's encryption messaging process
- BlackBerry Blend - brings messaging and content that's on your BlackBerry to your computer and tablet
- Access to Canada's largest LTE network

-
- **The classic BlackBerry® typing experience**
- The BlackBerry® Classic's physical keyboard helps you to type quickly, accurately and effortlessly. The physical navigation buttons are a key feature of the device, allowing you to start and end calls, and navigate through apps and other on-screen activities with ease.
- **Built to last**
- Built with premium materials, the BlackBerry® Classic has been designed to last. Featuring a 3.5 inch Corning® Gorilla® Glass screen, surrounded by a sleek metal frame, the BlackBerry® Classic provides users with a durable and damage-resistant design.

-
- **Battery life you can depend on**
 - The BlackBerry® Classic contains a powerful battery that provides up to 22 hours of battery life. Plus switch to Battery Saving Mode to conserve power and keep your device going in the times you need it most.
- **Ultimate privacy and data security**
 - The BlackBerry® Classic provides users with BlackBerry's world renowned privacy and data security. Through BlackBerry's encryption process for messaging and communications, the BlackBerry® Classic offers the ultimate privacy and security to protect your data.

-
- **Bring your messages and content to your desktop or tablet**
- Get instant access to your BlackBerry® smartphone messages and applications right on your desktop or tablet, with the new BlackBerry® Blend software. You can now get message notifications, as well as read and respond to emails, texts and other messages, regardless of what device or operating system you are using.
- **Blazing-fast LTE speeds**
- The BlackBerry® Classic runs on Canada's largest LTE network¹, reaching super-fast maximum download speeds of up to 150 Mbps² (expected average download of 18-40 Mbps). With our recent rollout of 110 Mbps speeds, we increased our network speeds by up to 45%.³ Unlike some other carriers, the Bell network never falls back to 2G, so you can access blazing-fast speeds in more places.
