Details:

1. 1GB = 1 billion bytes; actual formatted capacity less.
2. Size and weight vary by configuration and manufacturing process.
3. Data plan required. LTE Advanced, LTE and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on LTE support, contact your carrier and see www.apple.com/iphone/LTE.
4. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.
5. Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Cellular data charges may apply.

6. All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced by Apple service provider. Battery life and charge cycles vary by use and settings. See www.apple.com/ca/batteries and www.apple.com/ca/iphone/battery.html for more information.
